If neither player has compiled a game-winning number of points when a round ends, play continues on to the next round until a winner is arrived at. Players score points whenever they play a tile to the board so that the Board Count would then equal any multiple of five. The Board Count (BC) is the sum total of all available open ends on the board.

### Dominoes Strategy - Chess and Poker

Once all the players have had an opportunity to place a chip on their scorecard, have the caller choose another letter and number combination. Keep playing like this until 1 player gets 5 chips in a row on their scorecard. If you're the first player to get 5 in a row, call out "Bingo!" to win the game.
